# Welcome to balance

Like many good ideas, Balance Me blossomed at our kitchen table over a sisterly chat in a quest to address our work/life balance. We said goodbye to corporate careers and retrained in yoga and reflexology, and in 2005 launched our pioneering natural, aromatherapy-inspired skincare brand in a 'pop-up' on London's Oxford Street.

Made in the UK our award-winning, performance-driven products are powered by botanically active ingredients, designed to solve skin concerns and bring skin back into balance, day after day.

For Spring 2017 we've refreshed our design and created solutions-focused ranges from sensitive to radiance, anti-ageing to cleansing. Whether you're shopping for yourself, for your teenager or best friend this spring, we've showcased our best-sellers and personal favourites, each guaranteed to enhance your skin and boost your wellbeing.
